Notes to the Unaudited Interim Consolidated Financial Statements
As at and for three months ended March 31, 2016 and 2015

(Expressed in Canadian dollars)

1. Company description and nature of operations

Rosita Mining Corporation (“Rosita” or the “Company”), formerly Midlands Minerals Corporation (“Midlands”) is an exploration-stage, publicly-traded Company (TSXV: RSC) incorporated in Ontario, Canada with its registered office address at 120 Adelaide Street West, Suite 2400, Toronto, Ontario, M5H 1T1. The Company is a junior prospecting and natural-resource company, focused on growing a mineral asset inventory to build shareholder value. The Company employs responsible exploration methods in politically stable, low-risk and mining-friendly countries. As the Company’s assets are located outside North America, they are subject to the risk of foreign investment, including additional local taxation and royalties, renegotiation of contracts, possible expropriation, currency exchange fluctuations and political uncertainty.

At a meeting of its shareholders held on July 20, 2015, shareholders of Rosita approved acquiring all of the outstanding shares of Alder Resources Ltd. (“Alder”) (the “Acquisition”), changing the name of Midlands to Rosita Mining Corporation and completing a 1-for-10 share consolidation (the “Consolidation”). The Acquisition was completed on July 24, 2015. See note 18 for details of the Acquisition.

2. Going concern

These unaudited interim consolidated financial statements (the “Consolidated Financial Statements”) have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of business, as they come due for the foreseeable future. The Company is in the process of exploring and developing its mineral properties and has not yet realized profitable operations. The Company requires additional financing for its working capital and for the costs of exploration and development of its mineral properties. Due to continuing operating losses, the Company’s continuance as a going concern is dependent upon its ability to obtain adequate financing and to reach profitable levels of operation. The Company will continue to seek additional forms of debt or equity financing, however, there is no assurance that it will be successful in doing so or that funds will be available on terms acceptable to the Company or at all. The ability of the Company to arrange such financing in the future will depend in part upon the prevailing capital market conditions as well as the business performance of the Company. Further, in order for the Company to carry out its exploration and mining activities, the Company is required to hold certain permits. There is no assurance that the Company’s existing permits will be renewed at their renewal date. These material uncertainties may cast significant doubt upon the entity’s ability to continue as a going concern. Accordingly, the Consolidated Financial Statements do not give effect to adjustments, if any that would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and liquidate its liabilities in other than the normal course of business and at amounts that may differ from those shown in the accompanying Consolidated Financial Statements.

At March 31, 2016, the Company had a working capital deficit of \$208,327 (December 31, 2015 – \$66,707), a cash position of \$266,754 (December 31, 2015 – \$446,826) and an accumulated deficit of \$33,197,802 (December 31, 2015 – \$33,053,942) and for the quarter ended March 31, 2016, cash used for operating activities of \$185,074 (2015 - \$308,697). In order to meet its work commitments and planned exploration expenditures for its projects as well as further working capital requirements, it may be required to complete further financings (debt or equity). Management continues to work toward completing additional financings.

3. Basis of preparation and significant accounting policies

Basis of preparation

3.1 Statement of compliance

The Consolidated Financial Statements, including comparatives, have been prepared in accordance with *International Accounting Standards 34 'Interim Financial Reporting'*, using accounting policies consistent with the IFRS issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

The Consolidated Financial Statements were approved by the Company's Board of Directors on May 26, 2016.

3.2 Basis of presentation

The Consolidated Financial Statements have been prepared on the historical cost basis except for certain non-current assets and financial instruments, which are measured at fair value, as explained in note 6. The Consolidated Financial Statements are presented in Canadian dollars, the Company's functional and presentation currency.

3.3 Basis of consolidation

The Consolidated Financial Statements include the financial statements of the Company and its wholly-owned subsidiaries; Midlands Minerals Ghana Limited, Midenka Resources Limited, Midlands Minerals Tanzania Limited, Manonga Minerals Limited, Harbour Capital Corporation, Alder Resources Ltd. and ALR Nicaragua S.A. (both not included in the comparative amounts since the Acquisition closed on July 24, 2015). Control is achieved when the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The consolidated statements of operations include losses of the Company's subsidiaries, including those purchased through the Acquisition (see note 18).

All inter-Company transactions, balances, income and expenses are eliminated on consolidation.

4. New accounting standards and interpretations

At the date of authorization of the Consolidated Financial Statements, the IASB and IFRIC have issued the following new and revised Standards and Interpretations which are not yet effective for the relevant reporting periods and for which the Company has not early adopted. However, the Company is currently assessing what impact the application of these standards or amendments will have on the consolidated financial statements of the Company.

- On July 24, 2014, the IASB issued the complete IFRS 9 (IFRS 9 (2014)). In November 2009, the IASB issued the first version of IFRS 9, Financial Instruments (IFRS 9 (2009) and subsequently issued various amendments in October 2010, IFRS 9 Financial Instruments (2010) and November 2013 IFRS 9 Financial Instruments (2013). The mandatory effective date of IFRS 9 is for annual periods beginning on or after January 1, 2018 and must be applied retrospectively with some

(Expressed in Canadian dollars)

exemptions. Early adoption is permitted. The restatement of prior periods is not required and is only permitted if information is available without the use of hindsight.

- In May 2014, the IASB issued IFRS 15 Revenue from Contracts with Customers, which supersedes IAS 11 Construction Contracts, IAS 18 Revenue, IFRIC 13 Customer Loyalty Programmes, and IFRIC 15 Agreements for the Construction of Real Estate, IFRIC 18 Transfers of Assets from Customers, and SIC 31 Revenue – Barter Transactions Involving Advertising Services. IFRS 15 establishes a comprehensive five-step framework for the timing and measurement of revenue recognition. The Company intends to adopt IFRS 15 effective January 1, 2018.

5. Capital management

The Company considers its capital to be its equity, which is comprised of share capital, reserve accounts and deficit, which as at March 31, 2016 totaled a deficit of \$198,082 (December 31, 2015 – a deficit of \$54,192). The Company's capital structure is adjusted based on the funds available to the Company such that it may continue exploration and development of its properties for the mining of minerals that are economically recoverable. The Board does not establish quantitative return on capital criteria, but rather relies on the expertise of management and other professionals to sustain future development of the business.

The Company's properties are in the exploration and development stage and, as a result, the Company currently has no source of operating cash flow. The only sources of future funds presently available to the Company are through the exercise of outstanding stock options, the sale of equity capital of the Company or the sale by the Company of an interest in any of its properties in whole or in part.

Management reviews its capital management approach on an ongoing basis and believes that this approach is reasonable, given the relative size of the Company.

There were no changes in the Company's approach to capital management during the three months ended March 31, 2016. The Company is not subject to externally imposed capital restrictions.

6. Financial instruments

Fair value

The Company has designated its cash and short-term investment as fair-value-through-profit-and-loss ("FVTPL"), which is measured at fair value. Other receivables are classified for accounting purposes as loans and receivables, which are measured at amortized cost that approximates fair value. Trade payables and accrued liabilities, and due to related parties are classified for accounting purposes as other financial liabilities, which are measured at amortized cost, which also approximates fair value. Fair values of the Company's financial instruments have been characterized below using a fair value hierarchy that reflects the significance of the inputs used in make the measurements.

As at March 31, 2016, the carrying and fair value amounts of the Company's financial instruments are approximately equivalent due to the relatively short periods to maturity of these instruments.

Fair value estimates are made at a specific point in time, based on relevant market information and information about financial instruments. These estimates are subject to and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates

A summary of the Company's risk exposures as it relates to financial instruments are reflected below:

i) Credit risk

Credit risk is the risk of loss associated with a counter-party's inability to fulfill its payment obligations. The credit risk is attributable to various financial instruments, as noted below. The credit risk is limited to the carrying value amount carried on the statement of financial position.

- a. **Cash and short-term investment** – Cash is held with major Canadian and Nicaraguan banks and investment institutions and therefore have minimal risk of loss. Short-term investment is held with a major Canadian bank and therefore has minimal risk of loss. In Management's opinion, the risk of loss is minimal with foreign banking institutions and is limited to the amount carried on statement of financial position. Cash held with foreign banks at March 31, 2016, totals \$31,388 (December 31, 2015 - \$8,712).
- b. **Other receivables and prepaid expenses** - The Company is not exposed to any significant risk, with such risk limited to the amount carried on the consolidated statements of financial position.

ii) Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities as they become due. As at March 31, 2016, the Company had a working capital deficit of \$208,327 (December 31, 2015 – a deficit of \$66,707). In order to meet its future working capital and property exploration expenditures, the Company intends on securing further financing, as required, to ensure that those obligations are properly discharged. If additional financing is raised by the issuance of shares from the treasury of the Company, control of the Company may change and

shareholders may suffer additional dilution. If adequate financing is not available, the Company may be required to delay, reduce the scope of, or eliminate one or more exploration activities or relinquish rights to certain of its interests. Failure to obtain additional financing on a timely basis could cause the Company to forfeit some or all of its interests and reduce or terminate its operations therein.

iii) Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, commodity prices and/or stock market movements (price risk).

a. Interest rate risk

The Company is not exposed to significant interest rate price risk due to the short-term nature of its monetary assets and liabilities. Cash not required in the short term, is invested in short to mid-term guaranteed investment certificates, as appropriate.

b. Currency risk

Although the Company's operations are conducted in Canadian dollars, it has entered into contracts and/or agreements that require payment in United States dollars, Ghanaian Cedi and Nicaraguan Córdoba. Management believes that foreign currency risk derived from currency conversions is negligible and therefore does not hedge its foreign exchange risk.

c. Price risk

The Company is not subject to price risk.

7. Sensitivity analysis

Based on management's knowledge and experience of the financial markets, the Company believes the following movements are "reasonably possible" over a three-month period:

The Company's funds are kept in Canadian dollars, US dollars, Ghanaian Cedi and Nicaraguan Córdoba at major Canadian, Ghanaian and Nicaraguan financial institutions.

Notes to the Unaudited Interim Consolidated Financial Statements
As at and for three months ended March 31, 2016 and 2015

(Expressed in Canadian dollars)

As at March 31, 2016, the Company's exposure to foreign currency balances is as follows:

As at		March 31, 2016	December 31, 2015
Account	Foreign Currency	Exposure (\$CDN)	
Cash	US dollar	1,771	4,699
Cash	Nicaraguan Córdoba	31,388	8,712
Accounts payable	Ghanaian Cedi	(606)	(606)
Accounts payable	Nicaraguan Córdoba	(11,943)	(10,852)
		20,610	1,953

The Company believes that a change of 10% in foreign exchange rates would increase/decrease net income for the period by approximately \$2,100 (December 31, 2015 - \$195).

8. Cash

The balance at March 31, 2016, consists of \$266,754 (December 31, 2015 - \$446,826) on deposit with major Canadian and Nicaraguan banks.

9. Short-term investments

As at March 31, 2016, short-term investment consists of a guaranteed investment certificate of \$10,000 (December 31, 2015 - \$10,000), which bears interest at rate of 0.65% per annum and has a maturity date of January 28, 2017.

10. Other receivables and prepaid expenses

The Company's receivables arise from two sources: Harmonized sales tax ("HST") recoverable from the Canada Revenue Agency and prepaid amounts to suppliers. These are broken down as follows:

	March 31, 2016	December 31, 2015
	\$	\$
HST recoverable	2,390	4,583
Prepaid insurance	1,725	3,450

13. Related-party transactions

During the three months ended March 31, 2016, \$45,000 (2015 - \$45,000) of management fees were incurred and payable to RG Mining Investments Inc. ("RGMI"). RGMI provides management and administrative services to the Company pursuant to an agreement that had an original term of 1 year and expired on September 30, 2012. It has been renewed for successive 1-year periods. The agreement may be terminated upon 60 days prior notice by either party or upon the criminal conviction, death, disability, incapacity, bankruptcy, insolvency, gross negligence, gross dereliction of duty or gross misconduct, of RGMI. The Company's Chairman of the Board and its CFO beneficially own RGMI. Effective March 1, 2016, RGMI has agreed to defer payment of \$5,000 of its monthly management fees until the Company completes a financing.

During the three months ended March 31, 2016, \$57,000 (2015 - \$96,241) was incurred and payable to key management personnel or to companies controlled by them, with regard to professional fees, salaries and benefits. The Company identifies key management personnel as current and former officers of the Company including the President and CEO as well as current and former directors of the Company. The Company's CFO is also considered key management but payments are made to RGMI (noted above) pursuant to the management services agreement. Effective February 1, 2016, the Company's CEO has agreed to defer payment of the entire monthly management fee of \$4,000 until the Company completes a financing.

Due to related-parties

As at March 31, 2016, the consolidated statements of financial position includes a balance of \$26,511 (December 31, 2015 – \$21,509) due to key management or companies controlled by them.

14. Sale of Kaniago gold project

On February 11, 2015, the Company announced that it has sold its Kaniago gold project in Ghana to a subsidiary of neighbor Asanko Gold Inc., Keegan Resources (Ghana) Limited ("KRGL"). The sale of the non-core asset was an important part of the Company's strategy to reduce costs, liabilities and risk, and to restore liquidity. In January 2015, the Company was granted an outstanding license renewal application from the Minerals Commission in Ghana which fulfilled a pre-condition for the sale, transfer and disposal of all of its right, title and interest in the concessions to KRGL. KRGL will be responsible for any conveyance and registration costs, including any income taxes on the transfers and renewal fees that may arise during the transfer process. The sale proceeds amounted to US\$250,000 (C\$311,500), with such amounts received by the Company in February, 2015.

Rosita project

On August 29, 2011, Alder entered into an option agreement with Calibre to earn a 65% interest in the Rosita project.

To exercise the option, Alder (and now Rosita) was obligated to pay Calibre:

- (i) An aggregate of 1,000,000 Alder common shares as follows:
 - a) 200,000 common shares of Alder within 5 business days of the TSX Venture Exchange approval of the option agreement (issued);
 - b) 200,000 common shares of Alder on or before October 3, 2012 (issued);
 - c) 200,000 common shares of Alder on or before October 3, 2013 (issued);
 - d) 200,000 common shares of Alder on or before October 3, 2014 (issued);

- (ii) An aggregate of \$4,000,000 in expenditures on the property as follows:

- a) \$500,000 on or before October 3, 2012 (incurred);
- b) An additional \$750,000 on or before October 3, 2013 (incurred);
- c) An additional \$1,250,000 on or before October 3, 2014 (incurred); and
- d) An additional \$1,500,000 on or before October 3, 2015 (incurred) (see below regarding these expenditures).

As at December 31, 2015, the Company (including previous expenditures by Alder) had fulfilled the requirements under the option agreement and it had earned its 65% interest in the Rosita project.

On June 30, 2014, Alder (assumed by Rosita upon close of the Acquisition) entered into a royalty agreement with Forbes & Manhattan, Inc. ("Forbes") for the settlement of a dated accounts payable totaling \$508,500 (including HST). Alder recorded the consideration of reducing the outstanding amount, by credited the carrying value of the Rosita project. The royalty is a 0.5% net smelter royalty ("NSR") on its 65% interest in the Rosita project (see note 17). The royalty became effective upon the Company earning the 65% interest in the Rosita project. The Company may reacquire the NSR by paying Forbes \$1,000,000 plus \$508,500.

17. Commitments and contractual obligations

The Company is obligated to pay a 0.5% net smelter royalty (“NSR”) on its 65% interest in the Rosita project (see note 15).

The Company’s activities are subject to environmental regulation (including regular environmental impact assessments and permitting) in each of the jurisdictions in which its mineral properties are located. Such regulations cover a wide variety of matters including, without limitation, prevention of waste, pollution and protection of the environment, labour relations and worker safety. The Company may also be subject under such regulations to clean-up costs and liability for toxic or hazardous substances which may exist on or under any of its properties or which may be produced as a result of its operations. It is likely that environmental legislation and permitting will evolve in a manner which will require stricter standards and enforcement. This may include increased fines and penalties for non-compliance, more stringent environmental assessments of proposed projects and a higher degree of responsibility for companies, their directors and employees. At present, the Company has complied with existing laws with regard to environmental legislation.

The Company has not determined and is not aware whether any provision for such costs is required and is unable to determine the impact on its financial position, if any, of environmental laws and regulations that may be enacted in the future due to the uncertainty surrounding the form that these laws and regulations may take.

18. Acquisition of Alder Resources Ltd.

On July 24, 2015, Rosita and Alder completed the Acquisition by way of a plan of arrangement (the “Arrangement”). Pursuant to the Arrangement, shareholders of Alder received consideration of 1.81 common shares of Rosita (each whole common share, a “Rosita Share”) per Alder share outstanding (the “Alder Shares”), calculated on a pre-Consolidation basis.

Each holder of a warrant to acquire Alder Shares (each, an “Alder Warrant”) outstanding immediately prior to July 24, 2015, will receive on subsequent exercise of such holder’s Alder Warrant, in accordance with its terms, for the same aggregate consideration payable on exercise of such warrant, 1.81 of a Rosita Share, calculated on a pre-Consolidation basis.

Each holder of an Alder option to acquire Alder Shares (each, an “Alder Option”) outstanding immediately prior to July 24, 2015, will receive on subsequent exercise of such holder’s Alder Option, in accordance with its terms, for the same aggregate consideration payable on exercise of such option, 1.81 of a Rosita Share, calculated on a pre-Consolidation basis.

In addition, Rosita has paid further consideration by acquiring \$100,000 of unsecured, non-convertible debentures (the “Debenture”) bearing interest at a rate of 10% per annum, from Alder. The Debenture matured on July 24, 2015.

Upon completion of, and in connection with, the Arrangement, Rosita consolidated the outstanding Rosita Shares (including the Rosita Shares issued to former holders of Alders Shares under the Arrangement) on the basis of one new common share for every ten existing common shares (1-for-10) (the "Consolidation") and changed its name to Rosita Mining Corporation.

Purchase price consideration

The Acquisition is being treated as an asset acquisition for accounting purposes as Alder does not meet the definition of a business, as defined in IFRS 3, *Business Combinations*. The purchase consideration has been allocated to the fair value of assets acquired and liabilities assumed as at July 24, 2015. The fair value of the purchase consideration was based on the closing stock price of Rosita (then Midlands) on July 23, 2015 (being the day prior to the closing of the Acquisition), as quoted on stockwatch.com on July 24, 2015.

⁽¹⁾After adjusting for the Consolidation and non-issuance of fractional shares.

⁽²⁾Options issued to Alder option holders were revalued using the Black-Scholes weighted average parameters below. The subsequent value was not material and therefore no adjustment was made. The warrants issued to Alder warrant holders were valued using the Black Scholes option pricing model with the following weighted-average parameters: Dividend yield – nil; expected volatility – 214.1%, risk-free interest rate – 0.60%, expected life (years) – 1.81 and Rosita common share price - \$0.005.

⁽³⁾In completing the Acquisition, the Company acquired the "rights" to explore the Rosita project. For accounting purposes, the Company considers these to be acquired rights to explore pursuant to IFRS 6 and accordingly has expensed these costs pursuant to its accounting policies.

19. Segmented information

Operating Segments

At March 31, 2016, the Company's operations comprise a single reporting operating segment engaged in mineral exploration in Nicaragua and Ghana (2015 only). The Company's corporate division only earns revenues that are considered incidental to the activities of the Company and therefore does not meet the definition of an operating segment. As the operations comprise a single reporting segment, amounts disclosed in the Consolidated Financial Statements also represent operating segment amounts.

Geographic Segments

Management has organized the Company's reportable segments by geographic area. The Nicaraguan and Ghanaian (2015 only) segments are responsible for that country's mineral exploration and production activities while the Canadian segment manages corporate head office activities. Information concerning Rosita's reportable segments is as follows:
